AFRICA - GERMAN GREEN HYDROGEN FORUM 2024

Global Transition to the Green Hydrogen Economy

1 - 2 September 2024 University of Namibia, Windhoek, Namibia

The Namibia Green Hydrogen Research Institute hosted at the University of Namibia, in collaboration with the Anhalt University of Applied Sciences - Saxony-Anhalt, recognized internationally for their leading roles and long tradition with respect to renewable energies, invite you to a collaborative dialogue between Germany and coastal African countries themed “Global Transition to the Green Hydrogen Economy”.

RESEARCH THEMES:

- The Global Green Hydrogen value chain
- Efficient production of Green Hydrogen (incl. quality, standards, and certification)
- Local utilization of Green Hydrogen – carbon capture through synthetic fuels production
- Capacity Building - Education and training for the Green Hydrogen economy
- Economic opportunities for Africa along the Green Hydrogen value chain
- Just transition – Fossil fuels financing Green Hydrogen locally and globally
- Legislation Environment - Financing Green Hydrogen infrastructure and equipment

CALL FOR PAPERS

Please send your intended title with abstract (200 words), photo, and short bio, before 24 June 2024 to nshafudah@unam.na if you are interested in contributing. Once accepted, full papers should be submitted before 10 August 2024, for publication in refereed proceedings.

More information on the agenda and registration to follow soon.

*We look forward to seeing you soon in
Windhoek, or virtually!*
