

COURSE ON OFFER 2025

Postgraduate Diploma in Family Medicine

Be part of the future – Make a difference and strengthen the Primary Health Care platform as we address health care needs in Namibia!

The purpose of the Postgraduate Diploma in Family Medicine is to train and equip doctors with the appropriate knowledge and clinical skills to provide quality care in areas relevant to general practice/primary care.

Programme duration: 2 years

Mode of programme delivery: Blended Learning

Programme information: Detailed programme information is available in the programme descriptor available on our website, at: www.unam.edu.na/prospectuses

Admission requirements

- Bachelor of Medicine and Bachelor of Surgery (MBChB) degree from UNAM or equivalent degree from an accredited institution outside the country.
- Registration with the Health Professions Councils of Namibia (HPCNA) as a general practitioner.
- Proficiency in English is necessary, especially where candidates are trained in a language other than English.
- Candidates are required to practise predominantly in primary care (private or public) or district hospital settings for the duration of the course, seeing ambulatory patients. Prior experience in primary care practice will be an advantage.

How to apply:

All applications are online and should be completed at:

www.unam.edu.na/online-application

Application period extended until 22 November 2024.
