- 10: 45 VIVA VOCE Panel members deliberate on the outcome of the examination, fill in a VIVA VOCE results form and the announcement of results.
- 11: 00 Announcement of examination results

### **About Viva Voce Examinations**

In addition to writing a thesis or dissertation, postgraduate students who are registered for master's or Doctoral by Thesis or Dissertation only, shall appear for a viva voce examination (an oral examination). This examination normally occurs after the dissertation is finished but before it is submitted to the university and may comprise a presentation (often public) by the student and questions posed by a panel of specialists on the subject. The public can attend and is permitted to ask questions.

Purpose – a viva voce examination is to: confirm that the thesis is a student's own work; confirm that the student understands what they have written; investigate the student's awareness of where their original work sits in relation to the wider research field and provide a developmental opportunity for considering future publication and research options.
